

***Recommendation for an Alternative (Potential Action) for the
Lake Havasu Resource Management Plan***

ITEM 1: Alternative Recommended by

Name, group, organization or agency: _____
Name of a contact person: _____
Phone number: _____
Address: _____
E-mail: _____

ITEM 2: Affected Public Lands

Describe the public lands that would be affected by this alternative (in **one** of the three ways):

☐ Provide a general description, example: *All public lands within one mile of Bouse, AZ.*

☐ **Or** use a legal description, example: *Township 19N Range 20W Section 12, 13, and 24.*

☐ **Or** draw or mark on a map. We prefer that you use either portions U.S.G.S. 7.5-minute topographic map quads, or 1:100,000 BLM Surface Management Status Maps. Whatever base map you use please include the name and source of the map, date of the map and the scale of the map. Example: *Base Map is Davis Dam, Surface Management Status Map, BLM 1999, 1:100,000 scale.* Also, include a legend for your map. If you do not have a map to use, contact this office and we will provide a base map.

ITEM 3: Issue Identification

Name the issue(s), which you feel this alternative addresses. You can simply check the issues below (from the Lake Havasu Resource Management Scoping Report) or you can simply describe your issue.

- | | |
|--|--|
| <input type="checkbox"/> Issue: 1 Aquatic Habitat (Fisheries) | <input type="checkbox"/> Management Concern: 1 Back Country Byways |
| <input type="checkbox"/> Issue: 2 Cultural Resource Protection | <input type="checkbox"/> Management Concern: 2 Fire Ecology |
| <input type="checkbox"/> Issue: 3 Disposal and Acquisition of Public Lands | <input type="checkbox"/> Management Concern: 3 Public Health and Safety |
| <input type="checkbox"/> Issue: 4 Livestock Grazing | <input type="checkbox"/> Management Concern: 4 Renewable Energy |
| <input type="checkbox"/> Issue: 5 Minerals Management | <input type="checkbox"/> Management Concern: 5 Riparian and Wetlands |
| <input type="checkbox"/> Issue: 6 Off Highway Vehicles | <input type="checkbox"/> Management Concern: 6 Special Management Areas |
| <input type="checkbox"/> Issue: 7 Protection of Paleontological Resources | <input type="checkbox"/> Management Concern: 7 Utility & Communication Corridors |
| <input type="checkbox"/> Issue: 8 Recreation on Public Lands | <input type="checkbox"/> Management Concern: 8 Vegetation |

- ____ Issue: 9 Special Status Species
- ____ Issue: 10 Transportation and Access to Public Lands
- ____ Issue: 11 Visual Resources
- ____ Issue: 12 Wild and Scenic Rivers
- ____ Issue: 13 Wild Horses and Burros
- ____ Issue: 14 Wilderness and Wilderness Study Areas
- ____ Issue: 15 Wildlife Management

- ____ Management Concern: 9 Water
- ____ Other:

ITEM 4: Description of Alternative

In general terms, describe your alternative and its objectives.

Examples:

- *The above-described public lands would be closed to camping between September and April to stop dumping around Bouse.*
- *BLM would exchange the above-described lands with State Parks so Arizona State Parks can develop a boat ramp to support recreation on the lake.*
- *The routes marked on the attached map would be designated as open as extreme challenge routes to provide diverse recreational opportunities.*
- *The area marked in red on the map would be managed for the improvement of bighorn sheep habitat. Up to six water developments could be placed in the area. All private lands would be acquired by BLM in this area if there were a willing seller.*

ITEM 5: Supporting Documentation (optional):

Attach any supporting photographs, studies, papers or letters, which may provide background for the alternative. Photographs and attachments will not be returned. Photographs should be labeled and include location, direction photographer, and date. Example: *Route to Crossman Peak (From point A on map, looking West). James T. Kirk, August 2002.* Articles should included original publishing information. Example: *Article from Today News, September 2, 2002 by Jane Austin.*

Submit the above information by March 24, 2003 to:

**Lake Havasu Field Office
Bureau of Land Mangement
2610 Sweetwater Avenue
Lake Havasu City, AZ 86406**

Attention: Gina Trafton

If you have any questions please call: Gina Trafton, Resource Management Plan Team Lead (928) 505-1273.

Note: If you would like to provide BLM with electronic version of your proposal or maps, please provide the data in either MS Word or WordPerfect. All Photographs/maps should be in either: jpeg or. tiff formats. All geographic data should be in UTM's NAD 1927, or a Arcview shape file or ARCINFO export or .e00 files. Send electronic files to: lake_havasus@blm.gov.
